# Lambers CPA Review Course

The [Lambers CPA review course](#) has been helping candidates to pass the CPA exam for more than forty years now. Arguably one of the best cpa exam review courses on the market, Lambers seeks to bring answers to the most difficult questions in an easy to understand way. It breaks down difficult concepts in a simplified and easy-to-understand fashion. There are different study materials provided by the Lambers system. They include audio courses, DVDs, flashcards, ipod courses, review textbooks, test prep software, and intensive reviews.

The Audio Course is intensive, covering a variety of topics in interesting, well-explained lectures. The lectures are given by experienced professors who have been in the accounting field for a long time and know their stuff. They discuss and work out hundreds of questions to ensure that you get the workings behind each type of question. These audio CDs are portable as they can be listened to when driving, working out, walking or on the bus. They are a good way of ensuring that your time is well spent. Other advantages of Audio CDs are the tips given in the lectures, definitions and explanation of key concepts.

The [Lambers Review DVD Course](#) consist of videos that are captured in a class setting led by professional instructors. The lessons are separated into small, manageable sessions to enhance efficiency in studying. Plus, you get to control the pace of the lessons by watching the DVDs at your own pace. These DVDs can be used alongside the review textbooks. In fact, these DVDs come with printable files of the review textbooks so you do not have to buy the textbooks separately.

Some students find the [Lambers flashcards](#) a good addition to their CPA prep tools. The cards have questions on the front and answers on the back. There are more than 250 Lambers flashcards for each section of the exam, and because they are easy to carry around, they will help you to review your materials wherever you are, conveniently and effectively.

[Lamber's iPod courses](#) are the favorites of many Lambers students. These videos can be loaded into an iPod and watched or listened to anytime, anywhere. Many students listen to these lectures over and over while they are doing housework, driving, or walking the dog. Also included with the iPod courses is the valuable "Ask the Expert" service, which allows the student to email questions to Lambers instructors and receive prompt answers. This service alone is worth the price of the DVD course.
