Yaeger CPA Review Course

Yaeger CPA Review Course

http://www.youtube.com/watch?v=Gf178-kXDmg&iv_load_policy=3

The [Yaeger CPA review course](#) was not the first CPA review course I had used. After using another study course, I failed three out of four sections of the CPA exam. It was after that experience that I bought [Yaeger's Home Study Course](#), which ended up helping me to pass all three sections with impressive scores.

The [Yaeger website](#) claims that students who have studied from the *Yaeger CPA review course* materials have an 88% pass rate on the CPA exam. The founder, Dr. Phil Yaeger, has been preparing students for the exam since 1977. Dr. Yaeger and his team offers something that none of their competitors are currently offering: an "Instructors Hotline" (an 800 number) that students can call to ask questions regarding the course material or about the CPA exam in general. I myself have made numerous calls to this number and have spoken to very patient instructors (including Dr. Yaeger himself a couple of times) who would not finish the call until I had no further questions.

The [lecture videos](#) are fairly engaging and are taught by knowledgeable instructors. The instructor would first explain relevant concepts, and then take the student through multiple choice questions and simulations. One benefit of the Yaeger system is that more lecture time is devoted to materials that are more likely to appear on the exam. Similarly, they would only ask students to spend time on doing practice questions that have the highest chances of turning up in the actual exam.

Also worth mentioning are [Yaeger's cram DVDs](#) which can add between 5 to 15 points to your CPA exam score. Every DVD teaches a condensed version of a single CPA section and lasts 7-16 hours. These cram DVDs are aimed at identifying the student's weak areas and strengthening those areas right before the exam. Even students that are using another CPA review course can benefit from these cram DVDs by using them as supplementary, last-minute study materials.

All [Yaeger CPA review course materials](#) are updated annually, including lecture videos which are re-filmed every year. Thus, the student can be confident that they are studying from the most up-to-date information.

Surprisingly, in spite of their high quality, [Yaeger CPA products](#) are priced lower than many other CPA exam review courses. All in all, I am very happy with the [Yaeger CPA review course](#) and would recommend it highly to anyone trying to pass the CPA exam.

You can read a more detailed review of the [Yaeger CPA review course here](#). To find out more about David Bryant and his experiences with CPA exam preparation please visit his [CPA exam blog](#).
